Mechanical Engineering Technology MECE

Official Program Checksheet

Why Choose Mechanical Engineering Technology?

The Mechanical Engineering Technology program prepares students for a broad range of occupations and challenges. Beginning with foundation courses in math, applied science, CAD, manufacturing processes and communication, students move on to the applied engineering courses that give them a solid technical background for their careers. Students develop strong analytic and problem-solving skills. Their understanding of the principles taught in the classroom is enhanced with many hands-on labs and real-world applications provided by faculty with extensive industrial experience.

The Bachelor of Science in Mechanical Engineering Technology is accredited by the Engineering Technology Accreditation Commission of ABET Accreditation (ETAC-ABET), http://www.abet.org.

Career Opportunities

Due to the broad nature of their studies, graduates of the B.S. Mechanical Engineering technology program will find a great variety of jobs open to them. Many will work in the design and development of products, machines and processes. Others will be involved in manufacturing, operations and technical sales. Areas of employment will include automotive and transportation, power generation, climate control, machine design, manufacturing, materials and automation.

Admission Requirements

Students entering the program should have a strong interest in mechanical devices and seek to understand them better. They should have completed the A.A.S. in Mechanical Engineering Technology at Ferris (or a similar program elsewhere) with a minimum 2.5 GPA overall and a minimum 2.75 GPA in the major. Must have MATH 216/220 competency. Pre-engineering programs also make good starting points. Transfer candidates should contact the Mechanical Engineering Technology office to discuss options.

General Education Requirements

All University General Education requirements can be found here: http://www.ferris.edu/HTMLS/academics/general-education/requirements/BA-BS.htm

Please consult this link for a complete listing of General Education Electives:  http://www.ferris.edu/HTMLS/academics/general-education/courses/index.htm
Consult the official checksheet or program advisor for program specific General Education requirements.

**Graduation Requirements**

The Mechanical Engineering Technology program at Ferris leads to a bachelor of science degree.

Students must

- maintain a 2.00 cumulative FSU GPA
- have 40 credits at the 300/400 level
- have 30 credits of Ferris classes (FSU Residency requirement)
- have a minimum 120 total credits to earn a bachelor degree
- complete all general education requirements as outlined on the General Education website
