Why Choose the Master of Education in Curriculum and Instruction?

The Master of Education in Curriculum and Instruction gives professional educators the advanced professional development necessary to open several career options as well as providing a foundation to improve their instructional practice. Students eligible for admission to the graduate program must hold a bachelor's degree from an accredited college or university. When required, candidates should hold or be eligible for professional licensure, registration or certification to practice in the occupational specialty. Previous teaching experience is not a requirement. An admissions committee will review all application materials and recommend appropriate action. Upon admission to the graduate program, each student will be assigned a graduate advisor.

Career Opportunities

The program enables secondary and elementary educators to advance in their district salary schedules and become educational leaders either as administrators, curriculum directors, or department heads.

Admission Requirements

The applicant must possess a baccalaureate degree from an accredited college or university with a 2.75 or higher GPA on a 4.0 scale. Conditional entry may be granted when the 2.75 requirement has not been met. Once a student has been granted conditional entry, he/she must earn a GPA of 2.75 within the first nine (9) hours of graduate level courses. Consult individual program description for other admission requirements.

Teacher Certification Requirements (for Certification Concentrations only)

As required by the State of Michigan to receive teacher certification, all teacher candidates must: (1) pass the Professional Readiness Exam, (2) pass the pedagogy tests in their subject area majors and minors, and (3) have a 2.50 minimum GPA to receive teacher certification in Michigan. These state requirements are in addition to the FSU graduation requirements of your individual program.

Graduation Requirements

The Master of Education in Curriculum and Instruction requires that all students must complete all degree requirements within five (5) years after admission into the program. Consult individual program descriptions for other graduation requirements.
